German engineered safety for any situation.

The PremiumContact 6.

- › Reliable braking performance whatever the weather.
- › Enjoy a comfortable drive thanks to our enhanced footprint design.
- › Stay in control with our Macroblock technology.

GERMAN
TECHNOLOGY

German engineered safety for any situation.

The PremiumContact 6.

When the rain doesn't stop, this tyre will.

We can't control the weather, but we can keep you in control. The PremiumContact™ 6 "Safety Silica Compound" ensures constant grip on wet and dry roads meaning you can rely on us to stop ... even if the rain doesn't.

When your journey lasts longer, this tyre makes it feel shorter.

Our enhanced contact surface and pattern stiffness not only lower the interior noise but improve mileage and comfort. We call this comfort optimised performance footprint. So you can simply enjoy your journey for as long as you want to.

When life moves fast, this tyre keeps you in control.

The intelligent macroblock design provides maximum control and cornering stability even at higher speeds, improves grip performance for sporty driving and transmits more power from your car to the asphalt. That means simply: you're in control.

Dimensions.

Tyre width in mm:

185-325

Tyre cross section:

30-65

Rim size in inches:

15-22

Speed symbol:

H-Y

EU tyre label values

Fuel efficiency: A-D

Wet braking: A-B
